

# HBTD54S/N

Bluetooth Dimmer | 4 Wires 1 Circuits | ON/OFF Control

## Benefits

Compact: Enabling plug-in Bluetooth On/Off control

Stable: Ensuring safe operation with zero-cross protection

Flexible: Allowing wireless setup and parameter adjustment via app

## Applications

Compatible with Global, Powergear, and equivalent standard track systems

Offices, Retail stores, Warehouse

Museums, Galleries

Check out the complete system solution on the website:

<https://www.hytronik.com>

## Product Description

HBTD54S/N is a Bluetooth on/off dimmer for track lighting systems, enabling wireless switching control and upgrading conventional track luminaires to smart lighting. It features a built-in zero-crossing protection circuit to reduce inrush current, ensuring system stability and reliability. With simple plug-in track installation and no extra wiring, all parameters can be quickly and wirelessly configured through the Koolmesh app.

## Functions and Features

See additional details at the end of datasheet

Koolmesh (See  
bluetooth control below)

ON/OFF Control

# HBTD54S/N

Bluetooth Dimmer | 4 Wires 1 Circuits | ON/OFF Control

## Specifications

### Main Capabilities

Dimming (Output) Interface	Relay ON/OFF
----------------------------	--------------

### Electrical Data

Bluetooth frequency	2.4 GHz - 2.483 GHz
Bluetooth transmit power	4 dBm
Bluetooth range	10-30 m
Bluetooth system	Koolmesh
Operating voltage	220-240VAC 50/60Hz
Load ratings	400VA(Capacitive), 800W(Resistive)

### Technical

Operation temperature	Ta: -20°C ~ 45°C
Storage temperature	-20°C ~ +60°C
Relative humidity	20 ~ 90%
Case temperature (Max.)	Tc: +75°C
IP rating	IP20

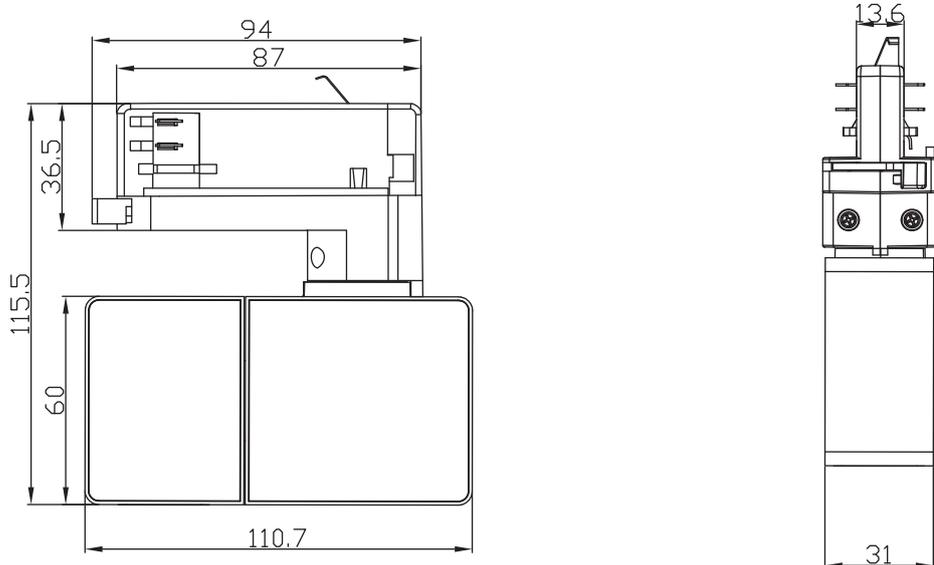

### Standards

EMC	EN IEC 55015, EN IEC 61547, EN IEC 61000-3-3/-3-3
LVD	EN61347-1/-2-11, EN60570-1
RED	EN300 328, EN301489-1/-17, EN50663
Certification	CE , UKCA

## Installation Process

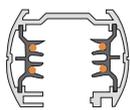

**1**

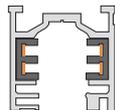

**2**

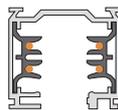

**3**

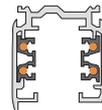

IVELA

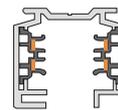

STAFF

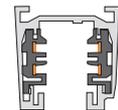

NORLUX

GLOBAL

EUTRAC

NUCO

## Detailed Installation Instruction

### A. Insert into Track

1. Align the track adapter with the track rail, ensuring A and B are correctly offset, then insert the device vertically into the track slot.

### B. Lock the Device

2. Rotate the cam lever until it reaches the locking position and the device is firmly secured in the track.

### C. 4 Wires Track System Compatibility

3. 4 Wires 1 circuits track adaptor is universal compatible.

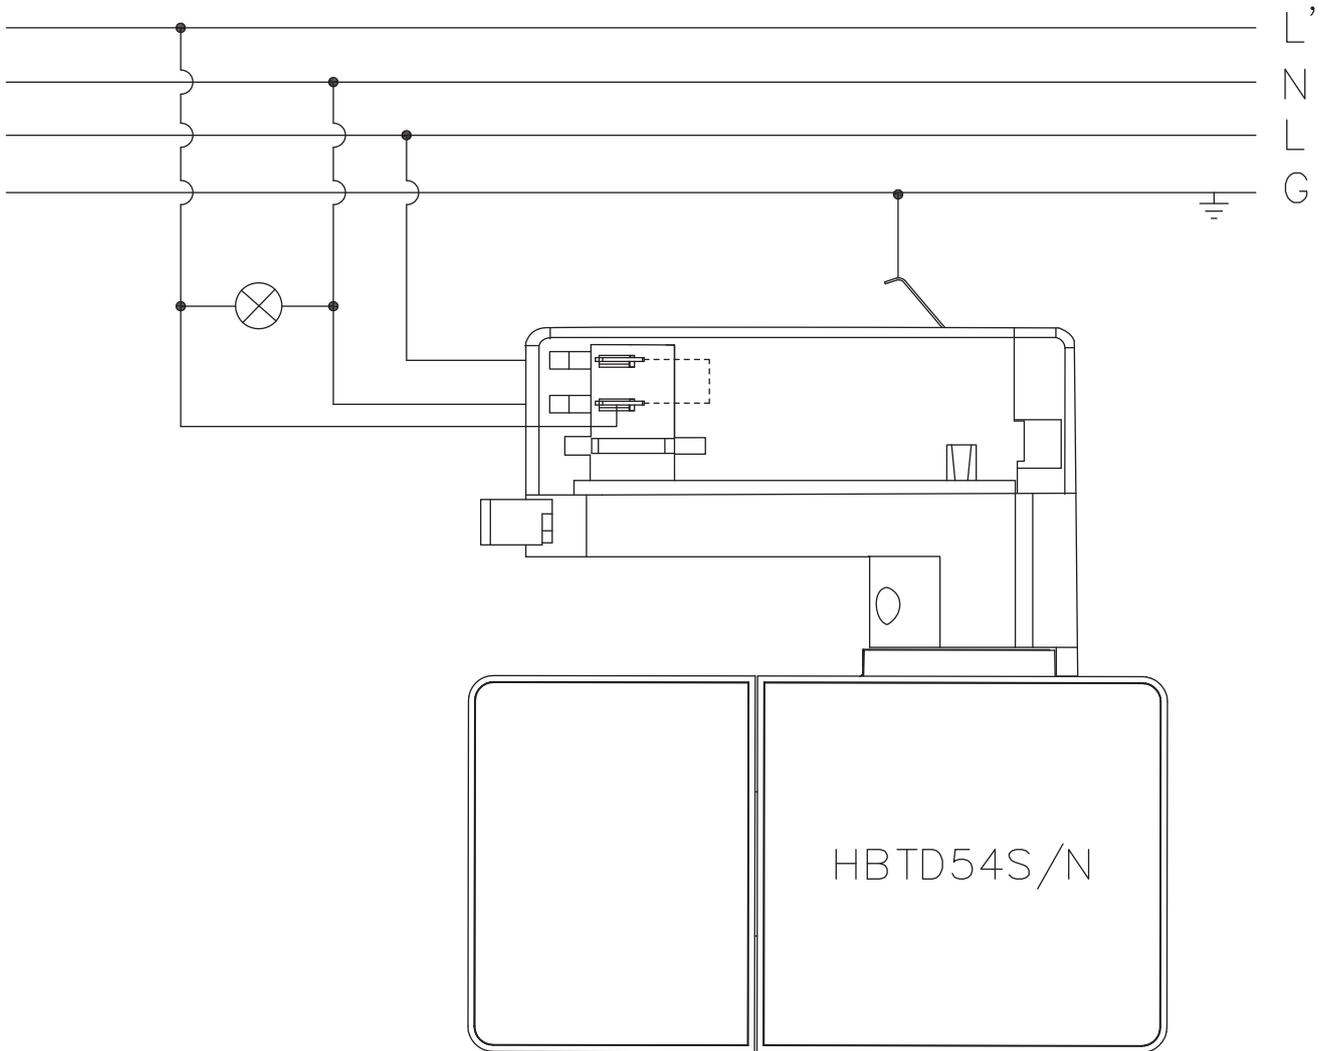

It works with the following brand tracks: IVELA, STAFF, NORLUX, GLOBAL, EUTRAC, NUCO

Note: Compatibility means the track adaptor is designed to fit the current track specifications of these brands. However, compatibility cannot be guaranteed if the track manufacturers change their track dimensions or specifications in the future.

## Commissioning Instructions and Precautions

### A. Installation Preparations

1. This product should be installed by a qualified electrician.

### B. Wiring Precautions

1. Ensure the track power is disconnected before installation or removal of the device

**Warning:** For additional important documents, including installation precautions, product guidelines, and guarantee conditions, please refer to <https://hytronik.com/service/downloads>

## Dimming Interface Operation Notes

The Virtual Push interface provides a software-based dimming control method without the need for a physical wall switch. Push functions are simulated via the Koolmesh app, where detailed push behaviors and parameters can be flexibly configured.

Note: Single press, double press, and press-and-hold actions can each be independently assigned to one function via the app. Once configured, each action triggers only its assigned function. Multiple functions cannot be activated by a single press action.

Switch Function	Action	Descriptions
Normal push (retractive switch)	Single press ( $> 0.1s$ ) Double press Press and hold ( $\geq 1s$ )	<ul style="list-style-type: none"><li>• ON/OFF</li><li>• OFF only</li><li>• Recall this scene</li><li>• Sensor take over</li><li>• Not in use</li></ul>
Emergency self-test function	Single press ( $> 0.1s$ ) Double press	<ul style="list-style-type: none"><li>• Disable</li><li>• Function test</li><li>• Duration test</li><li>• Terminated test</li></ul>

## Koolmesh - Operating guide

### Bluetooth 5.0 SIG Mesh

Smartphone(ios)

Smartphone (Android)

iPad

Web

For additional information, including project and network, device, and scenes, please refer to: <http://faq.koolmesh.com/faq/en/index.html>

### Shared Koolmesh App Features

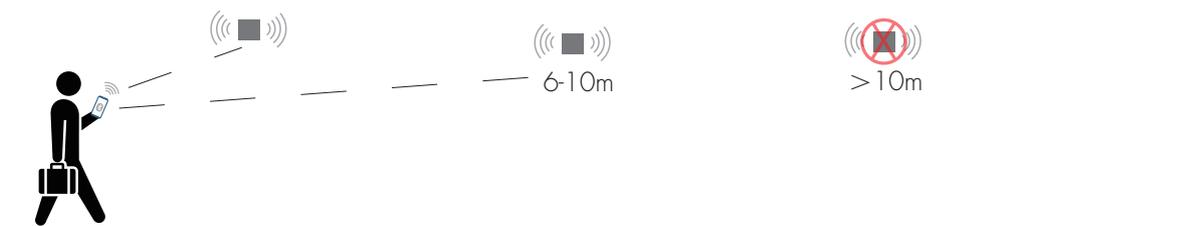

- Quick setup mode & advanced setup mode
- Web platform for project deployment & data analysis
- Koolmesh Pro iPad for on-site configuration
- Floorplan feature to simplify project planning
- One-key device replacement
- Device social relations check
- Staircase function for quick setup
- Remote control via Hytronik gateway & touch screen HPAD-TSJASE1
- Heat map
- Grouping luminaires via mesh network
- Scenes
- Schedule
- Astro timer (sunrise and sunset)
- Power-on status (memory against power loss)
- Offline commissioning
- Bulk commissioning (copy and paste settings)
- Different permission levels via authority management
- Network sharing via QR code or keycode
- Interoperability with Hytronik Bluetooth product portfolio
- Internet-of-Things (IoT) featured
- Device firmware update over-the-air (OTA)
- Alert for excess lux / temperature / humidity via multi-meter HBLM01
- Seamless integration with BMS via Hytronik BMS gateway
- Test mesh network connection quality
- Compatible with Shelly emergency metering
- Continuous development in progress...

### Device-specific Koolmesh App features

- Compatible with EnOcean kinetic switches

## Smart Phone to Device Range

1. The smart device with the installed App typically has a range of 10m, which may vary between devices.
2. During the commissioning process, the installer must be within range of the devices while searching for them to add to the network.
3. Once the devices are added to the network via the App, they will begin communicating within the wireless mesh.
4. After the network is complete, all devices can be accessed from the smart device within a 20m range of a single point.

## Functions and Features

### 5-year Warranty

All Hytronik products are supplied with a 5-year warranty covering defects in materials and workmanship, applicable to electronic control gear manufactured and supplied by Hytronik and valid for the original purchaser only. The warranty is non-transferable, and compatibility with external components and system integration remain the responsibility of the luminaire or system manufacturer. A universal warranty policy is provided with support through Hytronik's regional offices or authorised partners worldwide, regardless of purchase location, with a 24-hour response policy for all warranty claims. The full warranty terms are available upon request or on our website.

### ON/OFF Control

The product supports basic ON/OFF control of the connected luminaire, allowing the light to be switched fully on or off through the sensor's detection logic or an external control input. This provides straightforward lighting control for applications that do not require dimming functionality.
