

1. Description

QCCR01 is a ceiling rose designed to take power directly from BESA, or junction boxes, providing a clean and reliable solution for luminaire installations. Its spacious termination area and quick-connection design enable fast and straightforward wiring, while flexible mounting allows free placement or direct fixing to standard boxes. A secure double-latch mechanism prevents loose connections, and the flame-retardant housing ensures long-term safety and reliability in professional lighting applications.

2. Technical Specifications

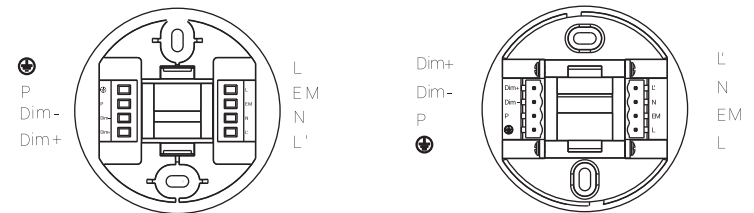

Voltage	250VAC
Frequency	50 Hz
Terminal capacity	2.5mm²
Temperature	0 °C - 40 °C
Current rating	6A

3. Technical Drawing

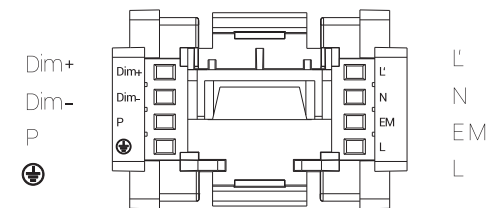

4. Input & Output Terminal Function

Terminal for Socket

Terminal for Plug

5. Commissioning Instructions and Precautions

A. Installation Preparations

1. This product should be installed by a qualified electrician.
2. During installation and removal, ensure the ceiling rose base is completely disconnected from mains power, and only restore power after the terminals are properly connected to prevent electric shock.
