

# System Level Components

## Bluetooth®

Connected devices, such as central control screen, gateways and switches, allow you to monitor and control your lighting installation.

Constant Lux Control

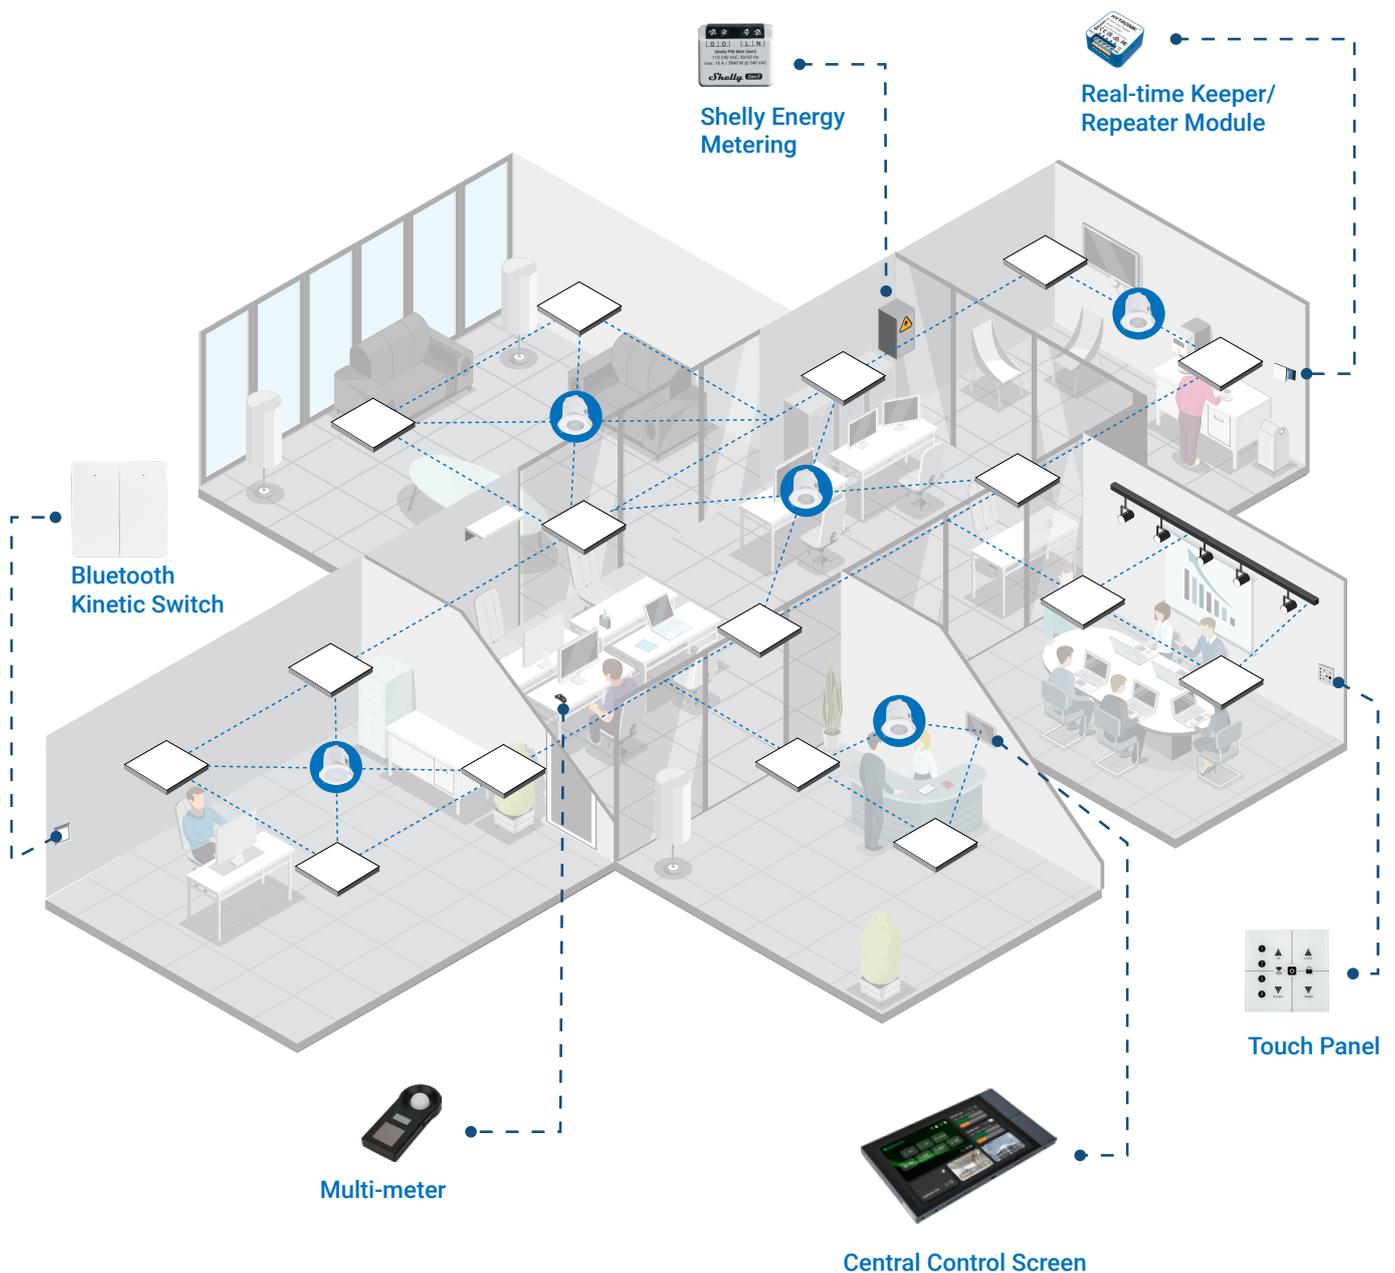

Temp. Hum Monitoring

# Connected. Intelligent. Powered by *Koolmesh*

Transform your lighting installation from fragmented and manual into a fully connected, automated ecosystem.

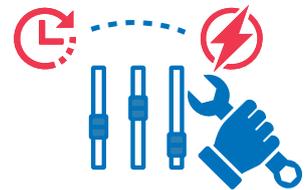

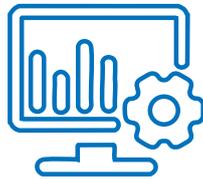

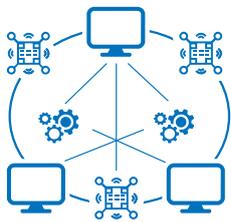

Hytronik's System Level Components are the backbone of the Koolmesh Bluetooth platform, delivering centralized control, automation, and real-time monitoring for industrial and commercial projects of any scale.

# Why Hytronik System Components?

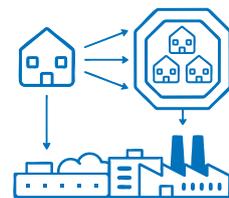

## The Challenges in Projects

- Fragmented systems with multiple controllers
- Limited visibility into performance
- Manual adjustments wasting time and energy

## The Hytronik + Koolmesh Advantage

- One connected ecosystem – all components communicate seamlessly
- Smart automation with scenes, sensors, and timers
- Scalable from a single room to an entire industrial campus
- Proven Hytronik reliability in every device
- Real-time monitoring through central dashboards

# Core Modules & Highlights

1

## Central Control Screens

- Real-time dashboards for full network visualization
- Configure zones, schedules, and scenes with ease
- Intuitive interface for facility managers

2

## Gateways

- Seamless Bluetooth mesh connectivity
- Expandable for large-scale projects
- Reliable data communication and performance

3

## Switches & Wireless Controls

- Flexible placement – no wiring needed
- Scene selection, dimming, and zone control
- Energy-harvesting options for maintenance-free operation

4

## Multi-meter

- Monitor light, air quality, humidity, and temperature
- Automate responses for comfort and efficiency
- Integrate with occupancy & daylight sensing

5

## Real Time Keeper

- Accurate, automated scheduling of lights and zones
- Match lighting to shifts, routines, or occupancy patterns
- Lower energy consumption and operational costs

# Applications in Action

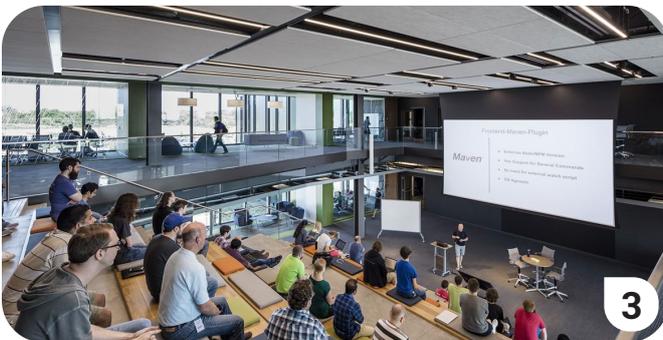

## Factories & Warehouses

Automate shifts, optimize lighting, reduce energy costs.

## Offices & Commercial Buildings

Centralized zone-based control and scheduling.

## Smart Campuses & Public Facilities

Integrated lighting, occupancy, air quality, and timing control.

## Hotels & Hospitality

Intelligent guest room and common area control for comfort, efficiency, and convenience.

# Multi-meter NFC

For Accurate Lux Measurement, Instant Dynamic Bluetooth Transmission, and Air Temperature & Humidity Monitoring

Designed for Office Desks & Warehouse Flow

## LCD Screen

Real-time display of temperature, humidity and light intensity

## Solar Energy Storage

**Lux**  
352 Lux

**HUM**  
73.50 %rh

**TEMP**  
29.18 °C

## NFC

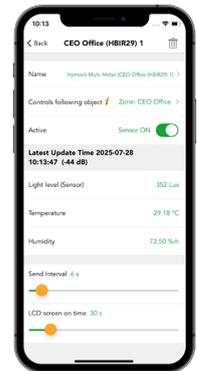

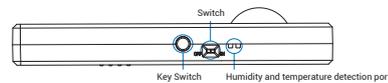

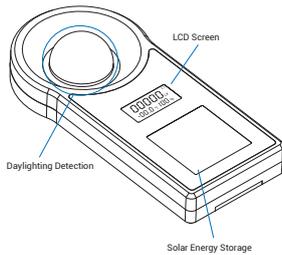

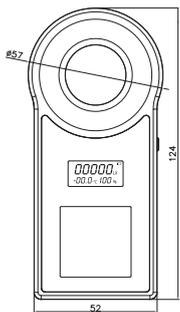

Turn on NFC on your phone and close to the top of HBLM01 to pair the device.

**Range**  
(Typical indoor)

**LUX**  
0~4000

16mm

## Mechanical Structure (unit: mm)

Easy configuration via Koolmesh APP

## Technical Specifications

Designation	Input & Output Characteristics			Measurement Range		
	Input voltage	Standby current	NFC	Temperature	Humidity	Lux range
HBLM01	3.0V	10μA	13.56 (MHz)	Ta: -40°C ~ +85°C	0% ~ 100%	0 ~ 4000 Lux

\*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

# Bluetooth Kinetic Switch

## 3 "NO"

- NO cables
- NO batteries needed
- NO electric shock

Self powered	No battery	Without wiring	Freely placeable
Suitable for junction box	Waterproof (no electric shock)	Key indicator light	1, 2, 3 or 4 Push switches

Easy configuration via Koolmesh APP

## Mechanical Structure (unit: mm) & Options

		One-gang HBKS01	Two-gang HBKS02	Three-gang HBKS03	Single Rocker HBKS01D	Double Rocker HBKS02D
		Single Rocker HBES01/W	Double Rocker HBES01/W			Single Rocker HBES01/B

## Technical Specifications

\	Designation	Operation frequency	Transmission power	Range (Typical indoor)	Operation temperature
Hytronik Version	HBKS01, 02, 03	2.4 GHz - 2.483 GHz	-5dBm	10~30m	-10°C ~ +40°C
	HBKS01D, 02D	2.4 GHz - 2.483 GHz	0dBm	10~30m	-10°C ~ +40°C
EnOcean Version	HBES01/W, HBES01/B	2.4 GHz	-4dBm	up to 10 m	-25°C ~ +65°C

\*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

# Central Control Screen

Easy configuration via Koolmesh APP

### Instant scene recall

Instantly restore your preferred lighting and device settings

### 4 custom Push

Free configuration of group control & individual light control

### Visualized interface

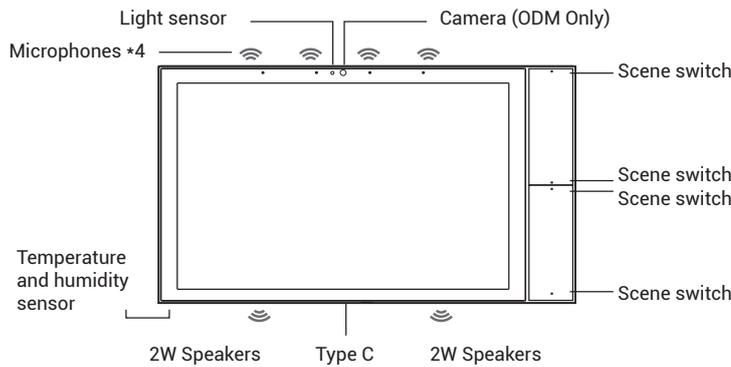

Display temperature, humidity, lux value

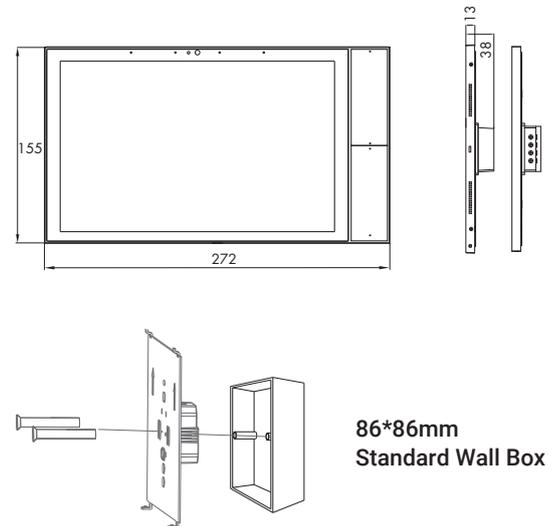

### Energy-saving statistics

Electricity consumption and carbon footprint statistics

## Multifunctional structure

## Mechanical Structure (unit: mm)

## Technical Specifications

Designation	Operating voltage	Wi-Fi	RAM	Storage	Interfaces
HPAD Series	100-240VAC,50/60Hz	2.4G/5G Dual-Band (802.11b/g/n)	-20°C ~ +50°C	16GB	USB port, Ethernet port (RJ45)

\*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

# Third-party BMS Gateway

HBGW02 Series

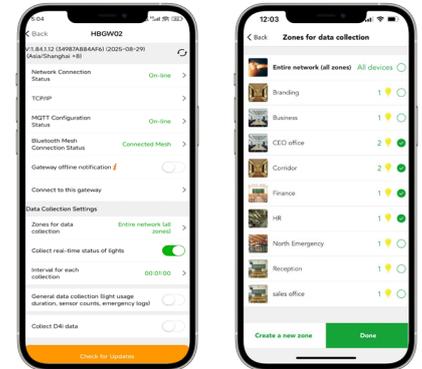

HBGW03/R

Industrial-grade BACnet gateway

HBGW02 Series

HBGW03/R

Easy configuration via Koolmesh APP

**Real-time readouts**

occupancy, light levels, energy use, alerts

**All local. No cloud**

**Direct integration with**

BACnet/IP BMS systems (HBGW03)

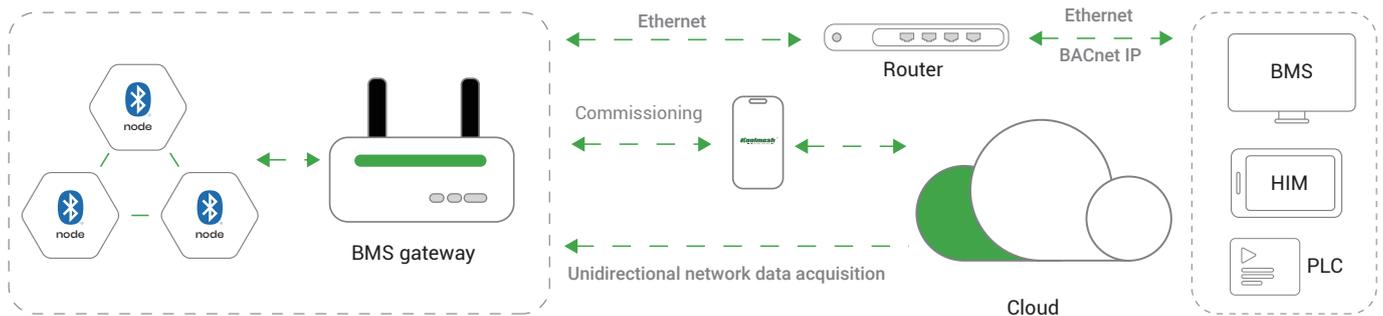

**USB-C + POE power supply**

(HBGW03)

## BMS Integration

The BMS gateway supports multiple protocols, including BACnet, KNX, and MQTT.

## Technical Specifications

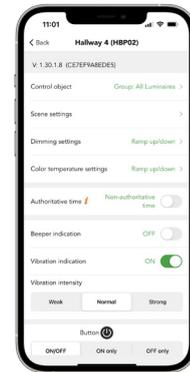

Designation	DC In	Power supply port	WiFi Frequency	WiFi Output Power	WiFi Range
HBGW02	DC5V/3A	POE	2412-2484MHZ	19.5±1dBm	Max.30m
HBGW03/R Series	DC5V/3A	USB Type-C	2401-2473MHZ	19.5±1dBm	Max.30m

\*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

# Touch Panel

**HBP02**

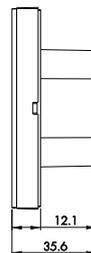

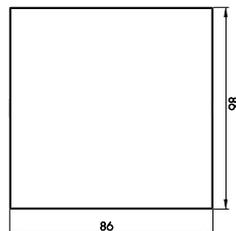

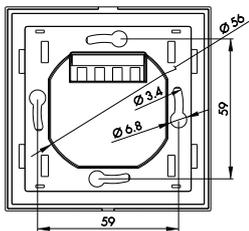

Easy configuration via Koolmesh APP

-  Manual adjustment: on/off, dim and color tuning
-  Keeps real time for 10 days during power failure
-  With vibration/ beeper/ LED indication/ Screen lock time

## Mechanical Structure (unit: mm)

 Designed for electrical box/junction box

## Technical Specifications

Designation	Operating voltage	Stand-by power	Operation temperature
HBP02	220~240VAC 50/60Hz	<1.5W	-20°C ~ +50°C

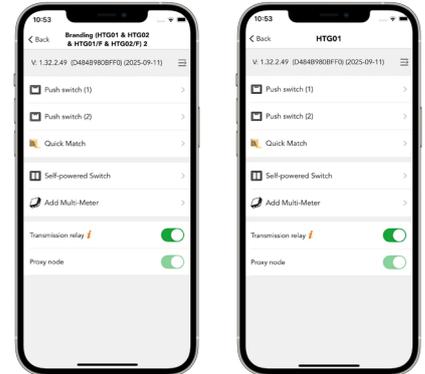

\*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

# Real-time Keeper/ Repeater Module

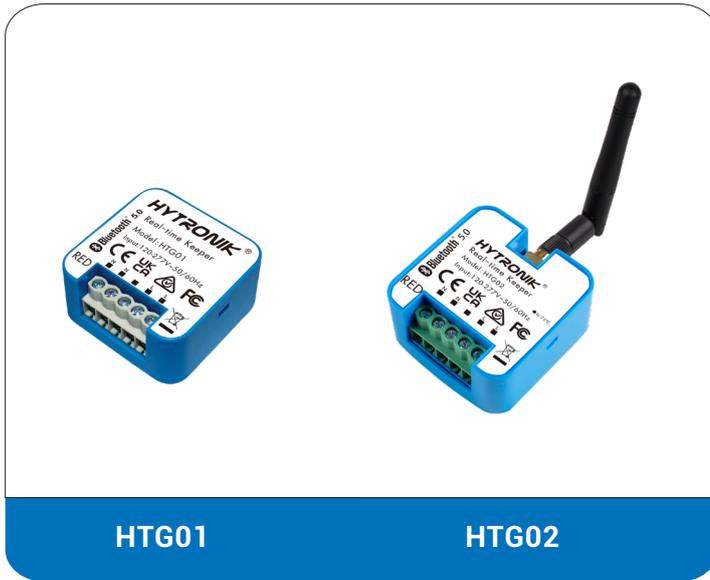

HTG01

HTG02

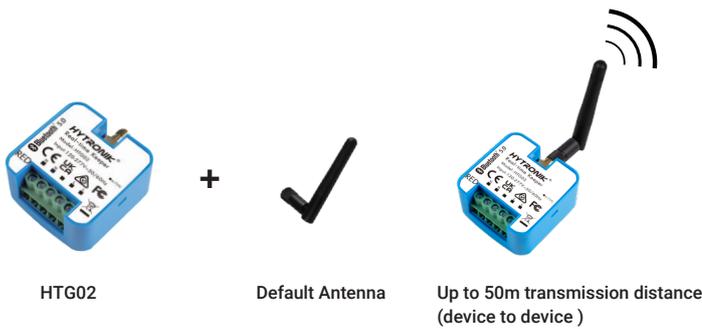

Easy configuration via Koolmesh APP

HTG01

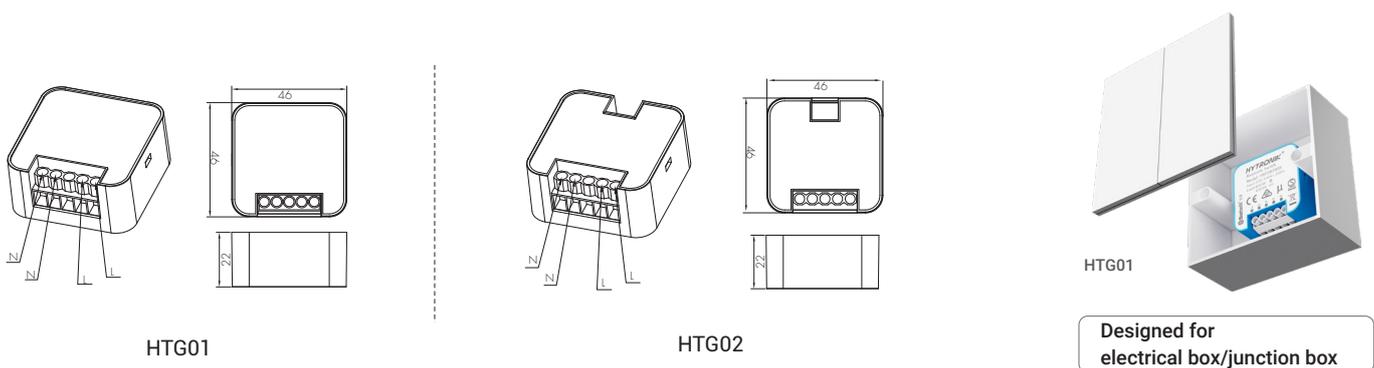

HTG02

## Extend the Bluetooth transmission distance Option

- Supports up to 30m / 50m transmission range
- Short-circuit protection
- Optional reinforced antenna available
- Keeps real-time for 10 days during power failure

## Mechanical Structure (unit: mm)

HTG01

HTG02

Designed for electrical box/junction box

## Technical Specifications

Designation	Operating voltage	Bluetooth Range ( device to device )
HTG01 / HTG02	120~277VAC 50/60Hz	30m (HTG01)   50m (HTG02)

\*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

# Shelly Energy Metering

## Track Real Consumption, Wirelessly And Effortlessly

### ■ Precise energy monitoring

Accurate measurement and real-time tracking of power consumption.

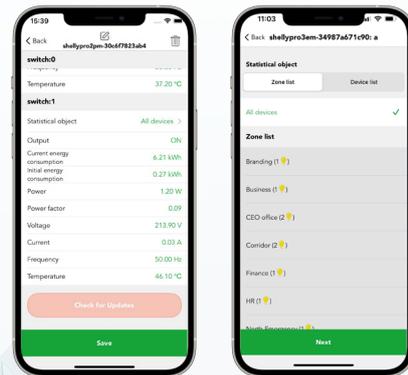

### ■ Smart alerts & protection

Notifications for overheating, overvoltage, overcurrent, and overpower.

### ■ Energy efficiency & cost optimization

Identify high usage areas, analyze patterns, and reduce operational costs.

### ■ Data visualization & management

Easy configuration via Koolmesh APP
