

5.8GHz Microwave Motion Sensor Safety Disclaimer

Preamble:

Thank you for choosing Hytronik. We are committed to providing high-quality 5.8GHz microwave motion sensor products and offering clear guidance for safe and reliable installation and operation. To ensure optimal performance, maintain product reliability, and provide a smooth user experience, please read the following safety instructions carefully.

1. Microwave Power & Compliance

- The 5.8GHz microwave sensor operates by emitting low-power microwave radiation for motion detection purposes only.
- All Hytronik sensors are designed to comply with relevant UK and international safety standards, including the Radio Equipment Directive (RED).

2. Radiation Effects

- The sensor emits non-ionizing radiation and is not known to harm humans at the specified power levels.
- Maintain a safe distance during operation, following manufacturer guidelines.

3. Manufacturer Guidelines

- Follow the manufacturer's instructions regarding mounting height, orientation, and operational environment.
- Do not modify or tamper with the sensor. Unauthorized alterations may affect performance, safety, and void the product warranty.

4. Liability Disclaimer

- Hytronik shall not be held liable for any damage or incident resulting from misuse, improper installation, or unauthorized modification of the product.
- Users and installers are responsible for ensuring that the sensor is used in compliance with all applicable local safety regulations.
- If you have any concerns or questions regarding the safe use of this device, please contact Hytronik or consult a qualified professional.

Please note that this disclaimer is a general guideline, and it is advisable to consult with legal experts or professionals familiar with product liability and safety regulations in the UK to ensure compliance with all relevant laws and standards.
