Emergency Lighting Solution

2026

Website: www.hytronik.com

- Hytronik Emergency LED Drivers and Inverters provide reliable safety, smart control, and effortless operation—keeping you protected anytime, anywhere.
- Emergency lighting with exit signs is present in nearly all public spaces. It plays a vital role in ensuring safe and orderly evacuation during emergencies. When every second counts, your lighting must perform flawlessly.

- Hytronik Emergency LED Drivers and Inverters provide reliable safety, smart control, and effortless operation—keeping you protected anytime, anywhere.
- Emergency lighting with exit signs is present in nearly all public spaces. It plays a vital role in ensuring safe and orderly evacuation during emergencies. When every second counts, your lighting must perform flawlessly.

Two Solution Levels for Different Project Needs

One Promise: Safety, Compliance and Reliability

Emergency working mode:

Normal

Emergency

Rest

Inhibit

Extended Emergency

Advanced Version

For large-scale or critical installations requiring predictive maintenance, sensor integration and smart monitoring.

Standard / Economic Version

For cost-sensitive or standard projects delivering reliable emergency lighting with minimal complexity.

How Does Hytronik Simplify Emergency Lighting?

■ Smarter design

■ Easier testing

■ Lower maintenance effort

Battery Life Prediction: Proactively know when batteries need replacement, avoiding downtime.

Wireless Monitoring: Bluetooth & DALI compatibility for effortless system management. Always know the health status of your emergency lighting.

Flexible Integration: Works with occupancy, daylight, and circadian sensors for intelligent building automation.

Retrofittable: Upgrade old systems without disruption.

Main Applications

Commercial Buildings

Healthcare Facilities

Schools & Universities

Industrial Sites

Our Featured Products

Combo Drivers (3-in-1)

Driver, emergency inverter, and sensor in one unit.

- Economic: cost-efficient basic emergency operation
- Advanced: sensor head integration + predictive battery monitoring

Emergency Inverter

Standalone retrofit units for luminaires without emergency.

- Economic: reliable, cost-efficient emergency power
- Advanced: smart monitoring & sensor integration

Emergency Sign Maintained

Keep exit signs illuminated and compliant during emergencies.

- Economic: reliable, cost-efficient emergency power
- Advanced: smart monitoring & sensor integration

DALI EM ↔ BLE Translator

Upgrade any DALI emergency system to wireless mesh for remote monitoring & predictive maintenance.

Overview

Emergency Combo Driver 3-in-1

(Mains-driver & Inverter & Plug-and-play motion sensor)

Designation	Input Voltage / Current	Uout max.	Output Power / Current / Voltage range	Emergency Output Power / Current / Voltage range	Dimensions (L x W x H mm)	LED indicator & Test switch	Optional Battery Pack
 Max. 25W HBEM01	220~240VAC / 162-150mA	60V	8-17.5W / 350mA / 24-50V 12-25W / 500mA / 24-50V 16-25W / 700mA / 24-36V	2W / 85-40mA / 24-50V 3W / 125-60mA / 24-50V	108 x 69 x 22.2	✓	BPC83 BPC84
 Max. 40W HBEM03	220~240VAC / 240-220mA	60V	8-17.5W / 350mA / 24-50V 12-25W / 500mA / 24-50V 16-33.5W / 700mA / 24-48V 16-40.5W / 900mA / 24-45V 25-40W / 1050mA / 24-38V	2W / 85-40mA / 24-50V 3W / 125-60mA / 24-50V 4W / 160-80mA / 24-50V	140.7x 79.2 x 23	✓	BPC83 BPC84

Emergency Inverter

(Inverter & Plug-and-play motion sensor)

Designation	Input Voltage / Current	Uout max.	Emergency Output Power / Current / Voltage range	Dimensions (L x W x H mm)	LED indicator & Test switch	Optional Battery Pack
 HBEM02	220~240VAC / Max. 25mA	60V	2W / 85-40mA / 24-55V 3W / 125-60mA / 24-55V 4W / 160-80mA / 24-55V	160 x 39.7 x 21.3	✓	BPC83 BPC84
 HBEM04	220~240VAC / Max. 30mA	60V	2W / 85-40mA / 24-55V 3W / 125-60mA / 24-55V 4W / 160-80mA / 24-55V 5W / 200-100mA / 24-55V	108 x 69 x 22.2	✓	BPC83 BPC84
 HBEM05	220~240VAC / Max. 50mA	60V	6W / 250-100mA / 24-55V 8W / 330-145mA / 24-55V 10W / 415-180mA / 24-55V 12W / 500-220mA / 24-55V	108 x 69 x 22.2	✓	BPC85

Bluetooth ↔ DALI Emergency Translator

Designation	Input Voltage	Output	Dimensions (L x W x H mm)	Switch-Dim	Connective to Sensor
 HBEM8200D/F	220~240VAC	DALI/DALI-2 Max. 100mA	58 x 46 x 18	✓	/
 HBEM038	220~240VAC	DALI/DALI-2 30mA Power Supply (PSU)	120 x 30 x 21	✓	✓
 HBEM049	220~240VAC	DALI/DALI-2 I max. 50mA	128 x 29 x 34	✓	/
 HBIREM29 Series	220~240VAC	DALI/DALI-2 I max. 80mA	79.2 x 62.2 x 62.2	✓	/

Battery Pack

Designation	Battery Type	Specification	Dimensions (L x W x H mm)	Recharge Time
 BPC83	LiFePO4	6.4V, 3.6Ah	105 x 53 x 27.5	24h
 BPC84	LiFePO4	6.4V, 3.6Ah	174.8 x 26.5 x 29	24h
 BPC85	LiFePO4	12.8V, 3.6Ah	100 x 56.5 x 66.5	24h

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

Emergency Combo Driver 3-in-1

(Mains-driver & Inverter & Plug-and-play motion sensor)

Max. 25W(CC) Main Output

Max. 3W EM Output

HBEM01

Key Benefits

- Self-contained Emergency & LED drivers combination with self-test function
- Non-maintained and maintained operations
- Mains & Emergency output (2W/3W) selection via DIP switch
- Dimmable via switch-dim or Koolmesh app in maintaining mode
- Plug-and-play sensor with Photocell Advance™ technology for daylight & motion detection
- Active PFC design
- Abnormal protection for short-circuit, overload and open-circuit
- SELV classified (indicator LED, battery pack, test switch)
- Customized manual test switch (single press, long press)
- 5 year design life for battery (up to 30°C ambient temperature)
- Battery Life Prediction and abnormal protection
- Wireless scheduling of monthly and annual EM tests via Koolmesh app
- Ideal for main lighting fixtures with emergency function requirements

Where it Fits

Bulkhead

Tri-proof

Technical Specifications

Designation		Output Voltage (Uout Max.)	Power Factor	Main Output Power / Current / Voltage Range
HBEM01		60V	>0.9	8-17.5W / 350mA / 24-50V 12-25W / 500mA / 24-50V 16-25W / 700mA / 24-36V
Input Current	Input Voltage	Efficiency	In-rush Current (Imax.) Pulse Time	Emergency Output Power / Current / Voltage Range
162~150mA	220-240 VAC	85% (max.)	21A / 80 μs	2W / 85-40mA / 24-50V 3W / 125-60mA / 24-50V

Optional Battery Pack		Discharge Current	Charge Current	Max. Load / Discharge Hour
BPC83	BPC84	6.4V, 3.6AH	0-500mA	0.4A, 2W@24 - 50V / 3H 0.56A, 3W@24 - 50V / 3H

Emergency Combo Driver 3-in-1

(Mains-driver & Inverter & Plug-and-play motion sensor)

Max. 40W(CC) Main Output

Max. 4W EM Output

HBEM03

Key Benefits

- Self-contained Emergency & LED drivers combination with self-test function
- Non-maintained and maintained operations
- Mains & Emergency output (2W/3W/4W) selection via DIP switch
- Dimmable via switch-dim or Koolmesh app in maintaining mode
- Plug-and-play sensor with Photocell Advance technology for daylight & motion detection
- Active PFC design
- Abnormal protection for short-circuit, overload and open-circuit
- SELV classified (LED Indicator, battery, test switch)
- Customized manual test switch (single press, long press)
- 5 year design life for battery (up to 30°C ambient temperature)
- Battery Life Prediction and abnormal protection
- Enables Wireless scheduling of monthly and annual EM tests via Koolmesh app
- Ideal for main lighting fixtures with emergency function requirements
- Provide insulating cover accessories for standalone installation

Compatible Plug-and-play Sensor Antenna

Bluetooth ↔ DALI Emergency Translator

100mA DALI PSU

Switch-Dim & Bluetooth

Screw Mounting

HBEM8200D/F

Key Benefits

- Converts DALI/DALI-2 emergency drivers output to Bluetooth control
- Compact design for seamless fixture retrofit
- Built-in 100mA DALI PSU, supports DT6/DT8 drivers
- Includes 2 push inputs for manual test and reset
- Enables wireless scheduling of monthly and annual EM tests via Koolmesh app
- Sends real-time email alerts on faults or test failures

Bluetooth ↔ DALI Emergency Translator

30mA DALI PSU

Switch-Dim & Bluetooth

HBEM038

Key Benefits

- Converts DALI/DALI-2 emergency drivers output to Bluetooth control
- Plug-and-play compatibility with various HF and PIR sensor heads
- Built-in 30mA DALI PSU, supports DT8 LED drivers
- Includes 2 push inputs for manual test and reset
- Enables wireless scheduling of monthly and annual EM tests via Koolmesh app
- Sends real-time email alerts on faults or test failures
- Ideal for easy retrofit in luminaires with compact design

Optional Accessories

Reinforced Bluetooth Range Antenna [HA01 W & HA01 B]

220 ~ 240VAC 50/60Hz	I guaranteed: 30mA I max: 50mA U rated: 16VDC	0.5W	20s	IP65

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

Bluetooth ↔ DALI Emergency Translator

DALI/DALI-2

Stand-alone PIR Sensor

Low-bay to High-bay

HBIREM29

Key Benefits

- Integrated DALI/Bluetooth converter and PIR sensor
- Converts DALI/DALI-2 emergency driver output to Bluetooth control
- 2 push inputs for manual test and reset
- Multiple PIR Lens options for different indoor applications
- Accessories available for surface/ceiling mounting styles
- Upgrade old buildings with smart lighting without extra wirings
- Enables wireless scheduling of monthly and annual EM tests via Koolmesh app
- Sends real-time email alerts on faults or test failures

LiFePO4	3.2V, 3.6Ah	174.8x26.5x29	24h

Compatible For:

HBEM05

Battery Type	Specification	Size (mm)	Recharge Time
LiFePO4	12.8V, 3.6Ah	100x56.5x66.5	24h

Why Choose Hytronik?

- **Proactive Safety :**
Reduce risks and avoid unexpected failures
- **Effortless Maintenance :**
Plan battery replacements before issues occur
- **Flexible Installation :**
Solutions for any project, any luminaire
- **Smart Control :**
Integrates seamlessly with sensors and wireless systems
