HYTRONIK®
SENSORS & LIGHTING CONTROL

Koolmesh®
— TAILOR MAKE YOUR SOLUTION

A flexible track lighting system designed for modern spaces - from sight to intelligent control.

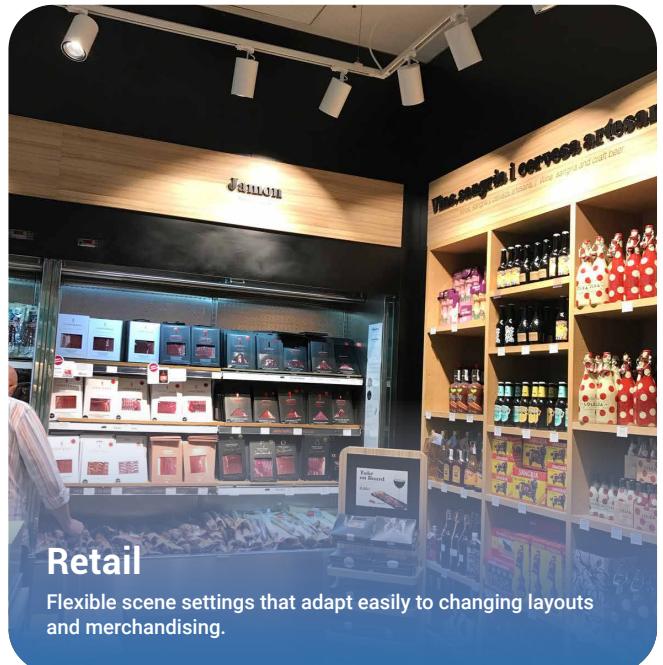

Lighting projects shouldn't be limited by wiring complexity or fragmented components. The Hytronik Track Light System brings power, control and intelligence into one unified track – **giving designers, engineers and installers the freedom to build lighting the way they need.**

- Where it makes a difference

Offices

Comfortable lighting with occupancy awareness and daylight - responsive control.

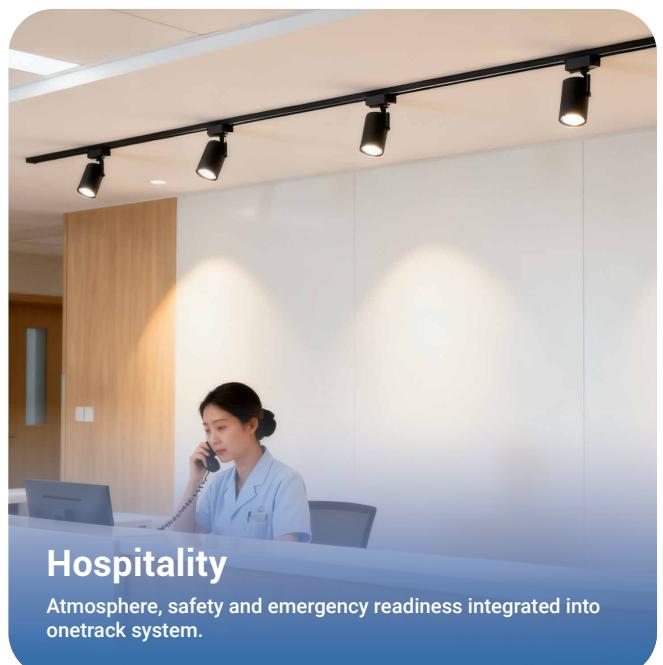

Retail

Flexible scene settings that adapt easily to changing layouts and merchandising.

Museums & Galleries

Precise dimming and stable control to protect artwork and enhance visual experience.

Hospitality

Atmosphere, safety and emergency readiness integrated into one track system.

- How it works

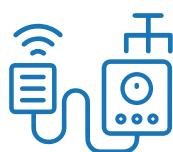

A modular track system where sensors, drivers, dimmers and emergency modules integrate seamlessly into the same track-ready to scale when projects grow.

Why Choose Hytronik Track Light System?

Traditional Track Problems

Multiple suppliers, inconsistent quality

Extra wiring for sensors and controls

Emergency lighting is hard to integrate

No wireless or future-ready option

Hytronik Advantage

One complete ecosystem in one track

Sensors, drivers, dimmers and emergency modules designed to work together - no fragmented suppliers.

Designed for real-world installations

4/6 wires with 3 circuits support flexible zoning without complex rewiring.

Scalable by design

Start with basic track lighting. Expand to smart control and system integration when needed.

Future-ready architecture

Compatible with Hytronik system-level components for long-term project evolution.

System Architecture & Core Modules

Everything you need,
integrated into one intelligent track.

In-track Sensor

Smart detection ensures lights only run when needed, saving energy and enhancing comfort.

In-track LED Driver

High-performance, DALI and Bluetooth compatible, delivering flicker-free, efficient lighting.

In-track Dimmer

Scene-setting and intuitive brightness control for retail, galleries, and workspaces.

DALI ↔ Bluetooth Emergency Converter

Upgrade instantly to wireless Mesh control, enabling remote commissioning and system expansion.

Track Adaptor Options

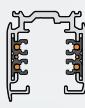

4 Wires 3 Circuits

6 Wires 3 Circuits

Product Overview

In-track Sensor

| Designation | Input Voltage | Output | Detection Method | Daylight Sensor/ Key Features | Tunable White Control | Active Lux Switching | Installation Height |
|---|---------------|---------------|------------------|---|-----------------------|----------------------|---------------------|
|  NEW  HIR62/TKN 4 Wires 3 Circuits | 220~240VAC | / | PIR | Photodiode Tri-level Dimming Daylight Harvest Circadian Rhythm | ✓ | ✓ | Low-bay max. 3m |
|  NEW  HIR60/TKN 6 Wires 3 Circuits | 220~240VAC | DALI | PIR | Photocell Tri-level Dimming Daylight Harvest Circadian Rhythm | ✓ | ✓ | Low-bay max. 3m |
|  NEW  HIR63/TKN 6 Wires 3 Circuits | 220~240VAC | DALI with PSU | PIR | Photocell Tri-level Dimming Daylight Harvest Circadian Rhythm | ✓ | ✓ | Low-bay max. 3m |

In-track LED Driver

| Designation | Type | Input Voltage | Output Uout max. | Output Dimming Interface | Max. Output Power / Current / Voltage range |
|---|------------------|---------------|------------------|--------------------------|---|
|   HED5040/BT 6 Wires 3 Circuits | Constant Current | 220~240VAC | 60V | Bluetooth | 2-15W/ 350mA /6-42V 2.5-19W/450mA/6-42V 3-23W/550mA/6-42V 4-27W/650mA/6-42V 4.5-32W/750mA/6-42V 5-36W/850mA/6-42V 6-40W/950mA/6-42V 6-41W/1050mA/6-39V 2.5-17W/400mA/6-42V 3-21W/500mA/6-42V 3.5-25W/600mA/6-42V 4-29W/700mA/6-42V 5-34W/800mA/6-42V 5.5-38W/900mA/6-42V 6-40W/1000mA/6-40V |

In-track Emergency Converter Bluetooth ↔ DALI

| Designation | Input Voltage | Output | Bluetooth Sensor-link | Push Switch | Application Type |
|---|---------------|----------------------------|-----------------------|-------------|---------------------------------------|
|   HBEM54/N 6 Wires 3 Circuits | 220~240VAC | DALI/DALI-2 I max:100mA | / | / | Bluetooth to DALI Emergency Converter |
|   HBEM54 6 Wires 3 Circuits | 220~240VAC | DALI/DALI-2 I max:100mA | ✓ | / | Bluetooth to DALI Emergency Converter |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track Dimmer

| Designation | Input Voltage | Output | Bluetooth Sensor-link | Push Switch | Application Type |
|---|---------------|------------------------------|-----------------------|-------------|-----------------------------------|
|  NEW  HBTD54/N 6 Wires 3 Circuits | 220~240VAC | DALI 100mA, 16VDC | √ | √ | Bluetooth to DALI Converter |
|   HBTD54 6 Wires 3 Circuits | 220~240VAC | DALI/DALI-2 I max:100mA | √ | / | Bluetooth to DALI Converter |
|  NEW  HBTD54S/N 4 Wires 1 Circuits | 220~240VAC | On/Off Control 400VA/800W | √ | √ | Bluetooth to On/off Relay Control |
|  NEW  HBTD54V/N 6 Wires 3 Circuits | 220~240VAC | 0/1-10V 400VA/800W | √ | √ | Bluetooth to 0/1-10V Control |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track Sensor

Low-bay

4 Wires 3 Circuits

Bluetooth Receiver

AC Mains Operation

NEW

HIR62/TKN

Key Benefits

- Occupancy sensor & light sensor
- Compatible 3-phase system in-tracks
- Support independent/grouped control for 3 circuits
- Omnidirectional dual-axis rotation allows for flexible adjustment
- Plug-and-play simplifies wiring and saves project costs
- Enhance the track light system with smart lighting capabilities
- Wireless configuration via Koolmesh app

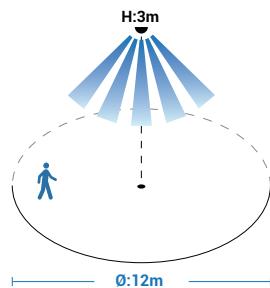

Detection Range

Height

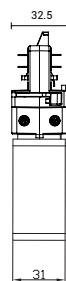

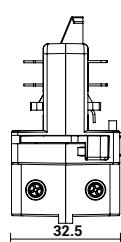

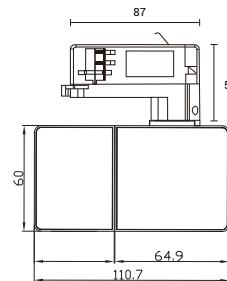

3m

Range Ø

12m

Mechanical Structure (unit: mm)

Main Functions

Daylight harvest

Tri-level control

Circadian rhythm

Technical Specifications

| Designation | Output | Operating voltage | Stand-by power | IP Rating |
|-------------|------------------|--------------------|----------------|-----------|
| HIR62/TKN | Bluetooth Output | 220~240VAC 50/60Hz | <0.5W | IP20 |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track Sensor

Low-bay

6 Wires 3 Circuits

DALI with PSU

AC Mains Operation

Key Benefits

- Built-in occupancy and light sensors
- Compatible 3-phase system in-tracks
- DALI with built-in PSU options available
- Support independent/grouped control for 3 circuits
- Omnidirectional dual-axis rotation allows for flexible adjustment
- Plug-and-play simplifies wiring and saves project costs
- Enhance the DALI track light system with smart lighting capabilities
- Wireless configuration via Koolmesh app

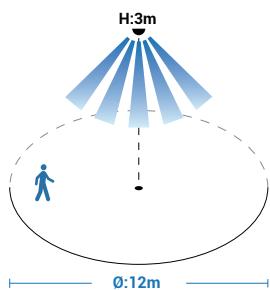

DALI Version: HIR60/TKN

DALI with PSU Version: HIR63/TKN

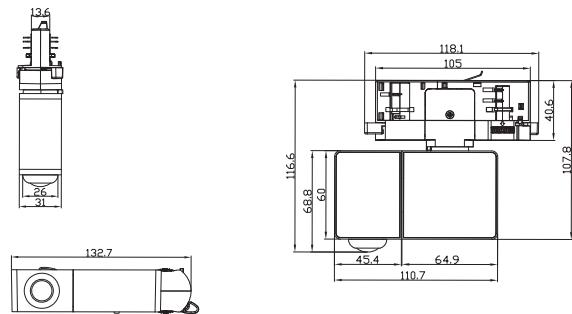

Detection Range

Height
3m
Range Ø
12m

Mechanical Structure (unit: mm)

Main Functions

Daylight harvest

Tri-level control

Circadian rhythm

Support the control of
DT6/DT8 and D4i
drivers

Technical Specifications

| Designation | Output | Operating voltage | Stand-by power | IP Rating |
|-------------|--|--------------------|----------------|-----------|
| HIR60/TKN | DALI DALI BUS: I max. 30mA | 220~240VAC 50/60Hz | <0.5W | IP20 |
| HIR63/TKN | DALI with PSU I guaranteed: 30mA I max: 60mA U rated: 15VDC | 220~240VAC 50/60Hz | <0.5W | IP20 |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track LED Driver

Max. 40W(CC) Output

6 Wires 3 Circuits

1CH Dimming

HED5040/BT

Key Benefits

- Bluetooth dimmable constant current / in-track LED driver
- Compatible 3-phase system in-tracks
- Adjustable output current via dip switch
- Protective features (short-circuit, overload, open-circuit)
- Logarithmic dimming and linear dimming modes
- Flexible configuration via companion Koolmesh app

Main Functions

(CC) output via DIP switch

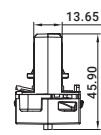

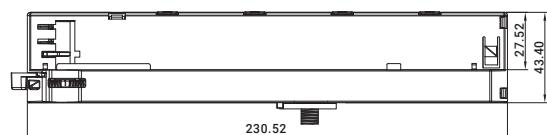

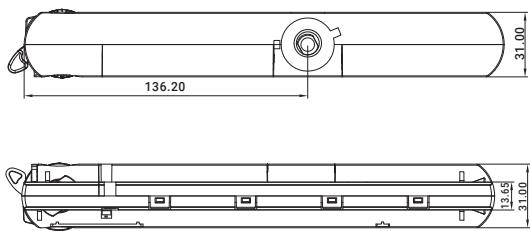

Active PFC design

Flicker free (1-100%)

Mechanical Structure (unit: mm)

Technical Specifications

| Designation | Operating Voltage | Input Current | Efficiency | Power Factor | Psb/Pno | Output Current | Turn-on Time | Output Voltage | Uout Max. |
|---|-----------------------|---------------------|-----------------------|-----------------------|---------------------|---------------------|-----------------------|-----------------------|-----------------------|
| HED5040/BT | 220~240VAC 50/60Hz | 215~195mA | 88% (Max.) | 0.99 | <0.5W | 350mA~1050mA | < 0.5s | 6~42V | 60VDC |
| Output LED Power / Current / Voltage | | | | | | | | | |
| 2-15W/ 350mA/ 6-42VDC | 5-34W/800mA/6-42VDC | 3-23W/550mA/6-42VDC | 6-40W/1000mA/6-40VDC | 4.5-32W/750mA/6-42VDC | 3-21W/500mA/6-42VDC | 6-40W/950mA/6-42VDC | 2.5-19W/450mA/6-42VDC | 5.5-38W/900mA/6-42VDC | 4.5-32W/750mA/6-42VDC |
| 4-27W/650mA/6-42VDC | 2.5-17W/400mA/6-42VDC | 5-36W/850mA/6-42VDC | 3.5-25W/600mA/6-42VDC | 6-41W/1050mA/6-39VDC | | | | | |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

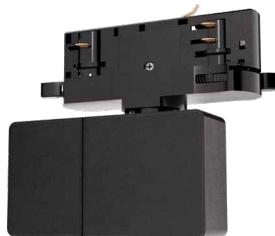

In-track Bluetooth ↔ DALI Emergency Converter

6 Wires 3 Circuits

DALI Output

NEW

HBEM54/N

HBEM54

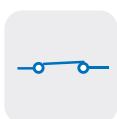

Key Benefits

- Converts DALI/DALI-2 emergency track light drivers to Bluetooth control
- Compatible with 3-phase systems in tracks
- Supports independent/grouped control for 3 circuits
- It allows for simple insertion into the track without extra wiring
- Enables wireless scheduling of monthly and annual EM tests via the Koolmesh app
- Sends real-time email alerts for faults or test failures
- Ideal for easy retrofit in the track lighting system
- Available in two distinct structural appearances

Main Functions

DALI Output

Short-circuit protection

Open circuit protection

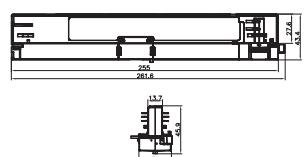

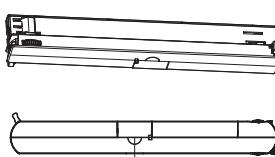

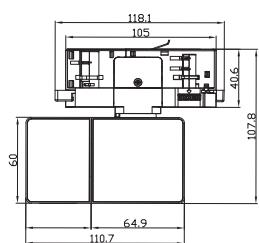

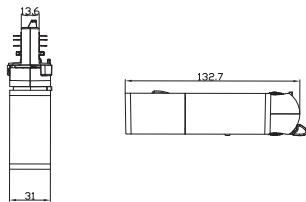

Dimming & turnable white

Supports DT1 emergency LED Drivers

Mechanical Structure (unit: mm)

Technical Specifications

| Designation | Output | Operating voltage | Stand-by power | IP Rating |
|-------------|---|--------------------|----------------|-----------|
| HBEM54/N | DALI/DALI-2 I guaranteed: 80mA I max: 100mA U rated: 15VDC | 220~240VAC 50/60Hz | <0.5W | IP20 |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track Dimmer

6 Wires 3 Circuits

DALI Output

NEW

HBTD54/N

HBTD54

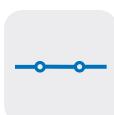

Key Benefits

- Enable Bluetooth dimming and tunable white control for the DALI track system
- Compatible 3-phase system in-tracks
- Support independent/grouped control for 3 circuits
- Simple insertion into the track without extra wiring
- Enhance the track light system with smart lighting capabilities
- Wireless configuration via Koolmesh app
- Available in two distinct structural appearances

Main Functions

DALI Broadcast Output

Short-circuit protection

Overload protection

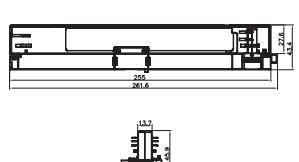

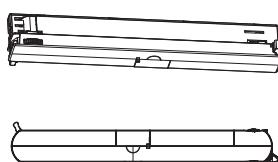

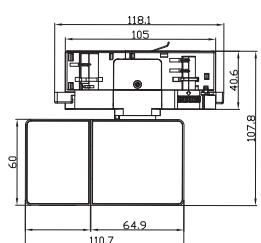

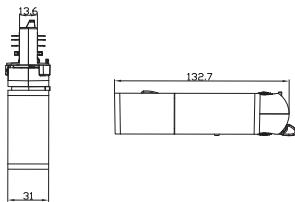

Dimming & tunable white

Supports D4i & DT8 LED Drivers

Mechanical Structure (unit: mm)

Technical Specifications

| Designation | Output | Operating voltage | Stand-by power | IP Rating |
|-------------|---|--------------------|----------------|-----------|
| HBTD54/N | DALI/DALI-2 I guaranteed: 80mA I max: 100mA U rated: 15VDC | 220~240VAC 50/60Hz | <0.5W | IP20 |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track DALI Dimmer

4 Wires 1 Circuits

On/Off Control

NEW

HBTD54S/N

Key Benefits

- Enable Bluetooth On/Off control for track light system
- Zero crossing detection circuit to reduce in-rush current
- Emergency self-test function via Koolmesh App
- Simple insertion into the track without extra wiring
- Wireless configuration via Koolmesh app

Main Functions

On/off control

Short-circuit protection

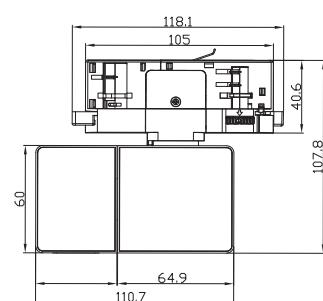

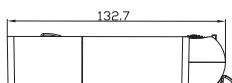

Overload protection

Zero cross detection

Mechanical Structure (unit: mm)

Technical Specifications

| Designation | Output | Operating voltage | Stand-by power | IP Rating |
|-------------|--|--------------------|----------------|-----------|
| HBTD54S/N | On/Off Control 400VA(Capacitive) 800W(Resistive) | 220~240VAC 50/60Hz | <0.5W | IP20 |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

In-track Dimmer

6 Wires 3 Circuits

0/1-10V Output

NEW

Key Benefits

- Adds Bluetooth connectivity to 0/1–10V dimming track light systems
- Compatible 3-phase system in-tracks
- Support independent/grouped control for 3 circuits
- Simple insertion into the track without extra wiring
- Enhance the track light system with smart lighting capabilities
- Wireless configuration via Koolmesh app

HBTD54V/N

Main Functions

0/1-10V dimming

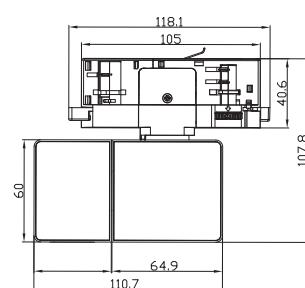

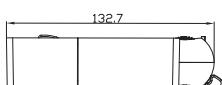

Short-circuit protection

Overload protection

Mechanical Structure (unit: mm)

Technical Specifications

| Designation | Output | Operating voltage | Stand-by power | IP Rating |
|-------------|---|--------------------|----------------|-----------|
| HBTD54V/N | 0/1-10V 400VA(capacitive) 800W(resistive) | 220~240VAC 50/60Hz | <0.5W | IP20 |

*Please always check the latest datasheet for technical requirements-----<http://hytronik.com>

A Complete Track Lighting Ecosystem

- Designed to simplify lighting projects - from design and installation to commissioning and future upgrades.

What you get

- Integrated sensors, drivers, dimmers and emergency modules
- Flexible 3-circuit track solutions with 4- and 6-wire options
- Wireless commissioning and system expansion
- Emergency-ready solutions without additional wiring

Built for real projects

- Start with basic track lighting.
- Add smart control, emergency monitoring and system-level components when needed - without changing the track infrastructure.

Next step

- Explore full specifications and compatible modules at www.hytronik.com
