Product Description

QCCR01 is a ceiling rose designed to take power directly from BESA, or junction boxes, providing a clean and reliable solution for luminaire installations. Its spacious termination area and quick-connection design enable fast and straightforward wiring, while flexible mounting allows free placement or direct fixing to standard boxes. A secure double-latch mechanism prevents loose connections, and the flame-retardant housing ensures long-term safety and reliability in professional lighting applications.

Commissioning Instructions and Precautions

A. Installation Preparations

1. This product should be installed by a qualified electrician.
2. During installation, ensure the ceiling rose base is completely disconnected from mains power to prevent accidental contact with exposed pins; power should only be restored after the base is securely installed.

Warning: For additional important documents, including installation precautions, product guidelines, and guarantee conditions, please refer to the official downloads.

Functions and Features

5-year Warranty

All Hytronik products are supplied with a 5-year warranty against defect in design or manufacture. The warranty applies to all electronic control gears supplied by Hytronik and is applicable to the party to which the sale was made. The warranty is not transferable to a 3rd party and compatibility with external components are the responsibility of the finished goods manufacturer. With today's multi-national sourcing strategies, we offer an unrivalled universal warranty with support available in regions where Hytronik has its own office or authorized representation, regardless of where the Hytronik product was purchased. Furthermore, we operate a 24-hour response policy to any claim. The full warranty policy is available upon request or from our website.
